

ORIGINAL

To Whom It May Concern:

I am writing to you as a concerned citizen on the importance of securing our power grid. I have watched and read many articles/podcasts on the failure and vulnerability of our power grid. I feel it is your duty and responsibility as men and women in positions of power to keep the juice flowing. The public has a right to know the names of companies that violate regulatory standards. That is why I support the proposal submitted by Michael Mabee on September 3, 2019. Thank you for your time and attention to this important matter.

Att: Docket NO. AD19-18-000
